SELPA: Lassen County SELPA

Each SELPA must adhere to requirements for developing and reporting special education budget revenue and expenditures. The following excerpt is taken from California School Accounting Manual (CSAM): Procedure 755 Special Education on page 755-1 and included to assist the SELPA with completing Section D: Annual Budget Plan information for each LEA participating in the SELPA's Local Plan. Special education budgets are complex and are of great interest to the public, both locally and statewide. EC Section 56205(b)(1) requires that a special education budget shall identify particular elements. Identification of the following elements is facilitated by the standardized account code structure (SACS):

- 1. Apportionment received by the LEA in accordance with the allocation plan adopted by the SELPA. (The apportionment is tracked in SACS in the resource field in combination with the revenue code in the object field.)
- 2. Administrative costs of the plan. (These costs are tracked in the function field.)
- 3. Costs of special education services to pupils with severe disabilities and low-incidence disabilities. (This population is identified by the goal field.)
- 4. Costs of special education services to pupils with nonsevere disabilities. (This population is identified by the goal field.)
- 5. Costs of supplemental aids and services provided to meet the individual needs of pupils placed in regular education classrooms and environments. (Costs of these aids and services are tracked in the function field.)
- California EC, Program Specialists and Administration of Regionalized Operations and Services. (These costs are tracked in the goal field for regionalized operations Costs of regionalized operations and services and direct instructional support by program specialists in accordance with Part 30, Chapter 7.2, Article 6, of the and in the function field for instructional services.) 6
- 7. Use of property taxes allocated to the SELPA pursuant to EC Section 2572. (Property taxes allocated to the SELPA are tracked in the resource field and identified by a revenue code in the object field.)

The Governing Board of each school district maintains authority to operate those programs identified in the annual service plan compiled by the SELPA. Each school district that operates special education programs is responsible for the recruitment, hiring, direction, and supervision of personnel necessary for the operation of these programs. Each Governing Board will cooperate with the Governing Boards of other Lassen County SELPA LEAs to assure the availability of special education services to all individuals with disabilities regardless of their district of accountability.

d. Monitoring the appropriate use of federal, state, and local funds allocated for special education programs: [EC 56205(a)(12)(D)(ii)(IV)]

It is the intent of the SELPA that the needs of students with disabilities, as identified in the IEP/IFSP, shall be met. Funds allocated for special education programs shall be used for services to students with disabilities. LEAs shall assure that funds received from Part B of the Individuals with Disabilities Education Act are used to supplement and not supplant state, local and other federal funds. To ensure the appropriate use of special education funds the following steps shall be followed by each reporting LEA: 1) Verification of the type and number of special education programs being operated; 2) Verification of the classification and number of staff assigned to special education programs; 3) Under the CDE's accounting code structure, verification that special education revenues are used for expenditures coded to appropriate special education categories; 4) Under the CDE's accounting code structure, comparing level of special education expenditures to prior year expenditures, confirming that federal maintenance of effort requirements have been met. If the current year special education program expenditures reflect a decrease from the prior year, identify the circumstances that created the decrease and the justification for maintaining the decrease under the maintenance of effort guidelines; 5) Verification that caseloads based on pupil count data (CASEMIS) support the level of staffing provided; 6) Verification that special day class enrollment counts are in alignment with special education average daily attendance as reported on the state attendance reports.

The SELPA Administrator will annually collect the information described above for each LEA operating

special education programs and report the findings to the Administrative Council. The Administrative Council will review the information, and make decisions as necessary, regarding the appropriate use of special education funds.

12. Describe how specialized equipment and services will be distributed within the SELPA in a manner that minimizes the necessity to serve students in isolated sites and maximizes the opportunities to serve students in the least restrictive environments: [EC 56206]

Funding for specialized books, materials, equipment, and services for identified special education students with low incidence disabilities (visually impaired, hearing impaired, and severely orthopedically impaired) shall be made available through the SELPA. The use of funds must relate to the unique educational needs resulting from a student's low incidence disability. The SELPA Administrator may allocate funds for specialized books, materials, equipment, and services to low incidence students who are: 1) enrolled in public special education or general education classrooms; 2) enrolled in a California State Special School; 3) enrolled in a certified non-public school or private school by a participating LEA; or 4) served in a student's home pursuant to an approved IEP. The primary goal for the use of these funds is to serve students in the least restrictive environment. Requests for low incidence funds must be submitted to the SELPA in writing. All requests will be reviewed and approved/disapproved by the SELPA Administrator or designee.

During this Transition period, parents may visit program sites where preschool services may be available, including general education and special education centers or classrooms.

Referrals for preschool-age children may also be initiated by parents, general education preschool teachers, doctors, or others who know the child and suspect a disability is present. The referring party may contact the Early Intervention administrator or program manager. In outlying areas, the district of residence school site administrator may be the point of initial contact. A summary of the steps commensurate with any school-age referral are:

• Notify administrator of District of Residence (if not already the point of contact) of new referral within that school district.

- Assign an appropriate case manager based on areas of concern as indicated on referral (e.g., special education preschool teacher or speech/language therapist);
- Meet with parents to discuss reason for referral;
- Complete Referral for Special Education form and Prior Written Notice;
- Explain Procedural Safeguards;
- Develop Assessment Plan in all areas of suspected disability;
- Preschool special education providers conduct evaluation and assessment to determine eligibility and required services;
- Hold IEP meeting within 60 days (or prior to child's third birthday for Early Start recipients).
- 2. A description of the method by which members of the public, including parents or guardians of individuals with exceptional needs who are receiving services under the local plan, may address questions or concerns to the SELPA governing body or individual administrator:

A dispute resolution process will be implemented as needed. It is understood that disagreements will occur within the membership of the Lassen County SELPA. It is the direction from the Administrative Council to resolve disputes at the lowest possible level. If a disagreement cannot be resolved at this level, the parties involved in the dispute shall follow the procedures outlined below:

- Local Informal Resolution: The complainant shall meet with the involved party (or parties) to attempt to resolve the disagreement. If not resolved at this informal level, the complainant may, within fifteen (15) school days (as determined by complainant's LEA calendar), seek the next level of relief.
- Administrative Council Resolution: The complainant must provide the SELPA Director with a written summary/analysis of the disagreement and a letter requesting that the matter be reviewed by the Administrative Council. A subcommittee consisting of four representatives of the SELPA, appointed by the Administrative Council, shall meet within fifteen (15) days to review the complaint. After investigating the disagreement, the committee shall recommend a resolution to the Administrative Council at their next regularly scheduled meeting. If the matter is not resolved to the satisfaction of both parties, either party, within fifteen (15) days of the decision of the Administrative Council, may

seek the next level of relief.

- Mediation: The party requesting mediation must submit a letter to the SELPA Director requesting that the matter be submitted to formal mediation. The SELPA Director shall submit a list of at least three (3) mediators for the parties to select from. If, within fifteen (15) days, the parties are unable to agree on a mediator or a mediator is not available to mediate the dispute, the SELPA Director shall file a request with the California Mediation Council. The selection of the mediator and the mediation proceedings shall be conducted under the authority of the California Mediation Council. If mediation is unsuccessful, any party to the dispute may seek the next level of relief.
- Binding Arbitration: The party requesting binding arbitration must file a request with the California Conciliation Service or the American Arbitration Association. The selection of the arbiter and the arbitration proceedings shall be conducted under the authority of the Voluntary Labor Arbitration Rules of the American Arbitration Association. The decision of the arbiter is final and binding on all parties.

Each party shall be responsible for costs incurred throughout the process and any appeal.

It is the intention of the SELPA to provide a full continuum of services to students with disabilities, including students in charter schools, throughout the geographic region of the SELPA. Access to services is through each of the LEAs. The referral, assessment and IEP process is utilized to identify the needs of each individual student with disabilities. LEAs shall ensure that students receive appropriate services in the least restrictive environment.

5. A description of the process being used to oversee and evaluate placements in nonpublic, nonsectarian schools and the method of ensuring that all requirements of each student's individualized education program are being met. The description shall include a method for

Non-public school/agency placements are considered part of the continuum of services that districts must have available for students with disabilities. Non-public school placement is the placement of last resort, and will be utilized only when all other placements have been exhausted. Students may be placed in certified non-public schools and agencies subject to the terms and conditions outlined in the Master Contract for Non-Public Schools and Agencies and an Individual Services Agreement provided by the SELPA. The district of residence (DOR) is responsible for the provision of FAPE for students placed in non-public schools/agencies and, in this regard, must play an active role in monitoring the appropriateness of the placement and progress of each student. The responsibilities of the DOR include but are not limited to the following:

Description:

- Participate in IEP meetings at least annually.
- Ensure that the IEP is written or revised to meet the unique needs of the student.
- Review evaluations conducted by the NPS/A to ensure that they are appropriate and valid for measuring student progress.
- Review all progress reports submitted by the NPS/A and follow up with areas of concern as necessary.
- Administer additional assessments as necessary, with parent consent, to determine whether the student is making appropriate educational progress.
- Intervene as necessary to ensure educational progress.
- Award diplomas as appropriate.

Financial support for the cost of non-public school and agency placements/services will be provided to districts subject to SELPA

SELPA Lassen County SELPA Fiscal Year 2023-24

policies and procedures developed by the Administrative Council.

6. A description of the process by which the SELPA will fulfill the obligations to provide free and appropriate public education (FAPE) to a student age 18 to 21 (or age 22 under the circumstances described in *EC* 56026(c)(4)) who has been incarcerated in a county jail and remains eligible for special education services:

The obligation to make FAPE available extends to those otherwise-eligible adults in county jail, age 18 to 21, who: (a) had been identified as a child with a disability and had received services in accordance with an IEP, but left school prior to their incarceration; or (b) did not have an IEP in their last educational setting, but had actually been identified as a child with a disability. (EC Section 56040)

It is the responsibility of the district of residence (DOR) to provide special education services and related services to an adult student in county jail who remains eligible for these services and wishes to receive them. The DOR is the district in which the student's parents resided when the student turned 18, unless and until the parents move to a new DOR. For conserved students, the DOR is based on the residence of the conservator. (*EC* Section 56041)

Document Title:

Lassen County SELPA Special Education

Federal law requires that a free appropriate public education (FAPE) is available for all students with disabilities aged 3-21. There are exceptions for: students aged 18, 19, 20, and 21 when State law specifically makes such exceptions, certain incarcerated adults, and students who have received a regular high school diploma.

In California, the general rule is that eligible adults age 18 -21 who were enrolled in or eligible for a special education program before their 19th birthday and who have not graduated with a regular high school diploma, are entitled to receive special education and related services as identified in their Individualized Education Program (IEP). (This eligibility extends to age 22 under certain circumstances.) However, an adult in county jail, age 18 to 21, is entitled to FAPE only if, in the educational placement prior to his incarceration in the county jail: (1) he was actually identified as being a child with a disability; or (2) he had an IEP.

Description:

It is the responsibility of the district of residence (DOR) to provide special education services and related services to an adult student in county jail who remains eligible for these services and wishes to receive them. The DOR is the district in which the student's parents resided when the student turned 18, unless and until the parents move to a new DOR. For conserved students, the

IMPORTANT: Adjustments to any year's apportionment must be received by the California Department of Education (CDE) from the SELPA prior to the end of the first fiscal year (FY) following the FY to be adjusted. The CDE will consider and adjust only the information and computational factors originally established during an eligible FY, if the CDE's review determines that they are correct. California *Education Code* (*EC*) Section 56048

Pursuant to *EC* Section 56195.1(2)(b)(3), each Local Plan must include the designation of an administrative entity to perform functions such as the receipt and distribution of funds. Any participating local educational agency (LEA) may perform these services. The administrative entity for a multiple LEA SELPA or an LEA that joined with a county office of education (COE) to form a SELPA, is typically identified as a responsible local agency or administrative unit. Whereas, the administrative entity for single LEA SELPA is identified as a responsible individual. Information related to the administrative entity must be included in Local Plan Section A: Contacts and Certifications.
